AGRI KING

IF/VF Technology

High Loads At Low Pressure

Fuel Economy

Reduced Soil Compaction

Field Protection

Self Cleaning

Excellent Traction

Comfort

Super Stability

- The unique curved wedge structure provides tires with strong traction, good stability and high comfort.
- Excellent parallel arc pattern ensures tires with high self-cleaning on muddy roads.
- The unique carcass structure equips tires with the characteristics of low air pressure, high load capacity, to reduce the damage to soil and crops.
- The cost of high-horsepower tractors is reduced thanks to larger imprint area and less fuel consumption.
- Higher tire strength increases stability on rough roads.
- IF, VF technology provide resilience and soil-friendly.
